

Questions for new user of Nanofabrication laboratories

Name:

1. The name of your guarantor and supervisor (if it's not the same person)?
2. What is the goal of your work in the Nanofabrication lab?
3. What equipment do you want to use in Nanofabrication?
4. What samples (size, composition...) do you plan to process/measure?
5. When do you plan to start using these devices?
6. How long do you expect to use the laboratories?
7. Are you working with someone who is already using the equipment?
